REMARKS/ARGUMENTS

Reconsideration of this patent application is respectfully requested in view of the foregoing amendments and the following remarks.

The Examiner has objected to the drawings. Enclosed is a substitute sheet which should be used to substitute for the original drawing on file. No new matter has been added.

The Examiner has objected to the specification. The specification has been amended to overcome this rejection.

The Examiner has objected to claims 16-19. Claim 16 has been canceled without prejudice. The remaining claims 17-19 have been amended to overcome this objection.

The Examiner has rejected claims The Examiner has rejected claims 1, 2, and 7 under 35 U.S.C. §102(b) as being anticipated by *Hartley*. The Examiner has rejected claims 1, 4, and 14 under 35 U.S.C. §102(b) as being anticipated by *Clore*. Furthermore, the Examiner has rejected claims 1, 3, 4, 12, and 14 under 35 U.S.C. §102(b) as being anticipated by *Wynne Wilson*. The

Examiner has rejected claims 1, 3, 4, 12 and 13 under 35 U.S.C. §102(e) as being anticipated by *Nezigane*. The Examiner has rejected claims 1, 3, 6, and 8 under 35 U.S.C. §103(a) as being unpatentable over *Aho et al.* The Examiner has also rejected claims 1, 9, and 10 under 35 U.S.C. §103(a) as being unpatentable over *Hiscock*. The Examiner has rejected claims 15 and 16 under 35 U.S.C. §103(a) as being unpatentable over *Samen*.

Claim 1 has been amended to include the elements of claims 1, 2, and 9. The Examiner has stated that only *Hiscock* includes the elements of a heat sink recited in claim 9. However *Hiscock* does not disclose the elements of any of claims 2-8. Therefore, because claim 1 has been amended to include the elements of claims 1, 2, and 9, it is believed that claim 1 is now patentable over the above cited references.

Accordingly, claims 2, and 9 have been canceled without prejudice.

New independent claims 27-29 have been added. With claim 27, the elements of claims 1, 3, and 9 have been combined into a new claim.

With claim 28, the elements of claims 1 and 11 have been combined together.

With claim 29, the elements of claim 1 have been included and also a new feature describing the structure of the housing in greater detail. Support for this new claim is shown in FIG. 1C, and is also recited on page 11 of the specification. No new matter has been added.

Claim 15 has also been amended to include the elements of allowable claims 16 and 17. Accordingly claims 16 and 17 have been canceled without prejudice. Therefore, it is respectfully submitted that claims 15 and 18 and 19 are patentable over the above cited references taken either singly or in combination. Therefore early allowance of the remaining claims is respectfully requested.

In summary, claims 1 and 15 have been amended, claim(s) 2, 9, 16, 17, and 20-26 have been previously withdrawn and are now canceled without prejudice. The applicant however reserves the right to file additional applications based upon these claims. New claims 27-31 have been added. No new matter has

been added. In view of the foregoing, it is respectfully requested that the claims be allowed and that this case be passed to issue. In addition the commissioner is hereby authorized to charge for additional independent and dependant claims to Collard & Roe, P.C.'s Deposit Account of 03-2468.

Applicant respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
